

PERSONAL EXAM

Name: Chester Almonte

Position Applying for: Project Base Web Developer

Date: March 21,2023

1. My personal vision in life is to have a remote job that would well compensate me for the job that I am going to take, to provide for my family and to have a work life balance.

2. In order for me to achieve my vision, I must learn and update myself with new technologies as the environment of Web Development is fast pace. I must be caught up to new trends by doing projects that would help me understand the programming tool/language even more. I have to practice everyday so that I can use them well in projects and implement them with ease. Being a web developer is challenging but rewarding at the same time. If you see that clients are please to the product that you delivered, it makes you happy and helps you gain more confidence to build more projects.

3. I believe Propelrr will help me to achieve my vision in life as they are a digitally innovative company. They help their clients in different kinds of web technology and have talented individuals to make the project work.

4. The statement that best describe me is statement B. During meetings and sprint planning, whenever I have an Idea, I would raise my hand and speak to the crowd expressing my ideas. I would suggest different options and would give the clients ideas on how to make their process efficient.

5. The following statement that is not aligned with my value is statement A.

Being quick to act is not always good especially if you know little about the problem. Making haste may solve the problem faster but only in the short term. We should be addressing the problem right by not making quick decision and thinking of the long term solutions.
